Competition Format and Rules

競技形式および規則 / Format et règlement des compétitions

As of THU 1 JUL 2021

OLYMPIC COMPETITION FORMAT

The diving competition at the Tokyo 2020 Olympic Games will consist of eight events: four individual events and four synchronised diving events, as follows:

- Women's 3m springboard
- Women's 10m platform
- Women's synchronised 3m springboard
- Women's synchronised 10m platform
- Men's 3m springboard
- Men's 10m platform
- Men's synchronised 3m springboard
- Men's synchronised 10m platform

Individual events

Each of the four individual events consists of preliminary, semifinal and final phases. A maximum of 34 divers compete in each individual event, with each NOC allowed a maximum of two divers in each of these events.

In each phase, the number of dives and restrictions on degree of difficulty (DD) are as follows:

	WOMEN	MEN
3M SPRINGBOARD	Five dives without DD limit	Six dives without DD limit
10M PLATFORM		

The diving order in the preliminary rounds will be determined by computerised random selection during the team leaders' meeting.

The 18 divers (including all tied for 18th place) with the highest scores in the preliminary will compete in the semifinal. The diving order in the semifinal will be the reverse of the preliminary rankings.

The 12 divers (including all tied for 12th place) with the highest semifinal scores will compete in the final. The diving order in the final will be the reverse order of the semifinal ranking.

In the case of a tie, the dive order shall be determined by a draw or coin toss between the affected divers.

The preliminary, semifinal, and final competition are separate events, each starting from zero points.

The final score of a phase is the sum of the points scored for all the dives performed in the phase.

In the individual events, the diver with the highest total points shall be declared the winner of that event. All individual dives are without limit of degree of difficulty.

Synchronised events

Each of these events will be run as a direct final, with a total of eight teams competing in each of the events. Diving order will be determined by computerised random selection during the Team Leaders' Meeting.

The competition for women 3m springboard and 10m platform events consists of five rounds of dives from five different groups. For the first two rounds of dives, a degree of difficulty of 2.0 is assigned for each dive regardless of the dive. The following three rounds of dives are without limit of degree of difficulty.

The competition for men 3m springboard and 10m platform events consists of six rounds of dives from five different groups. For the first two rounds of dives, a degree of difficulty of 2.0 is assigned for each dive regardless of the dive. The following four rounds of dives are without limit of degree of difficulty.

The final score of an event is the sum of the points scored for all the dives performed in the event.

In the synchronised events, the team with the highest total points shall be declared the winner.

DIFFERENCES BETWEEN THE FINA WORLD CHAMPIONSHIPS AND THE OLYMPIC GAMES

In the International Swimming Federation (FINA) World Championships, synchronised diving events consist of preliminary and final phases.

The world championship programme also includes 1m springboard events for men and women, 3m and 10m mixed synchronised events, and a mixed team event.

SPORT RULES AND PROCEDURES

Judging

After each dive, the judges score the dive from zero to 10 points, in half point increments.

Individual diving events

In individual events a panel of seven judges will judge each dive. In the preliminary and semifinal, two panels will be assigned because of the large number of dives to be judged. The first panel judges the first three rounds of dives, and the second panel judges the remaining dives. For the final of the individual events there is only one panel of judges.

The two highest and the two lowest judges' scores are not considered in the calculation of a dive score. The remaining three judges' scores are added and multiplied by a degree of difficulty (DD).

Synchronised diving events

In synchronised events a panel of 11 judges will be assigned for each final. This panel is split into three groups, with three judges scoring execution for one diver (E1, E2, E3) and three judges scoring execution for the other diver (E4, E5, E6). The remaining five judges score synchronisation (S1-S5).

The highest and lowest judges' scores within each group of judges are not considered in the calculation of a dive score. The sum of the remaining five judges' scores are divided by five, multiplied by three and then multiplied by the degree of difficulty (DD) for the dive.

Officials

The technical officials for the competitions will be the FINA bureau (jury of appeal), the FINA technical diving committee and judges who are appointed by FINA.

A commission shall be appointed consisting of the diving technical delegate (FINA bureau liaison), the chairman, the vice-chairman and honorary secretary of the technical diving committee.

Tie Break rules

There are no tie-breaking rules for qualification or for ranking.

All divers tied for the last qualifying position will advance to the next phase and the start order for these divers in the final will be decided by a random draw.

In the case of ties for any place or medal, tied divers/teams will share the same rank and multiple medals will be awarded.

Penalties/disqualification rules

Athletes or teams may be disqualified for serious breaches of FINA or IOC rules.

Complaints/protests

A complaint may be lodged immediately after a dive during competition. If a complaint is accepted by the referee, an immediate re-dive will be allowed. The scores from the original dive should be retained by the OC technology system in case of further protests.

If a re-dive is allowed, this will be explained on the results outputs with a free text note.

A protest may be lodged up to 30 minutes after the last dive of the phase/event. Protests are not allowed against decisions of fact by the referee.
